NOTES

1. Look up our Vision web site, futuresandfoundations.org and locate the 6 Strength Profiles. Share with each other which profile is more dominant in you, and how that positions you to serve the Lord.

2. Read Matt 16: 17, 18. This is the first mention of the concept of the church in recorded history. How would you define the church and what we are supposed to be about?

3. We are not a perfect church by any means. The sermon challenged every person to love the church. Despite our flaws, take some time to speak well of our local church together, what are you grateful for, what are your prayers to God for our church?

4. The idea of people finding God's grace and love is deeply meaningful to us. If we ever become jaded with that, we recognize that somethingis deeply wrong with us. How affected are you for the lost? In all the competes for your attention in this life, how does the lost coming to Christ rank in you? Pray that the embers would never cool off in you or our church.

5. Can you quote our Vision statement from memory? Clue: It has the number 5 in it a few times! Check the web site to see if you got it right! Please pray for the church during this series, that vision would cast, caught and acted upon.
